

Money Matters: A Personal Finance Management App

Introduction

1.1. Overview

Project Description

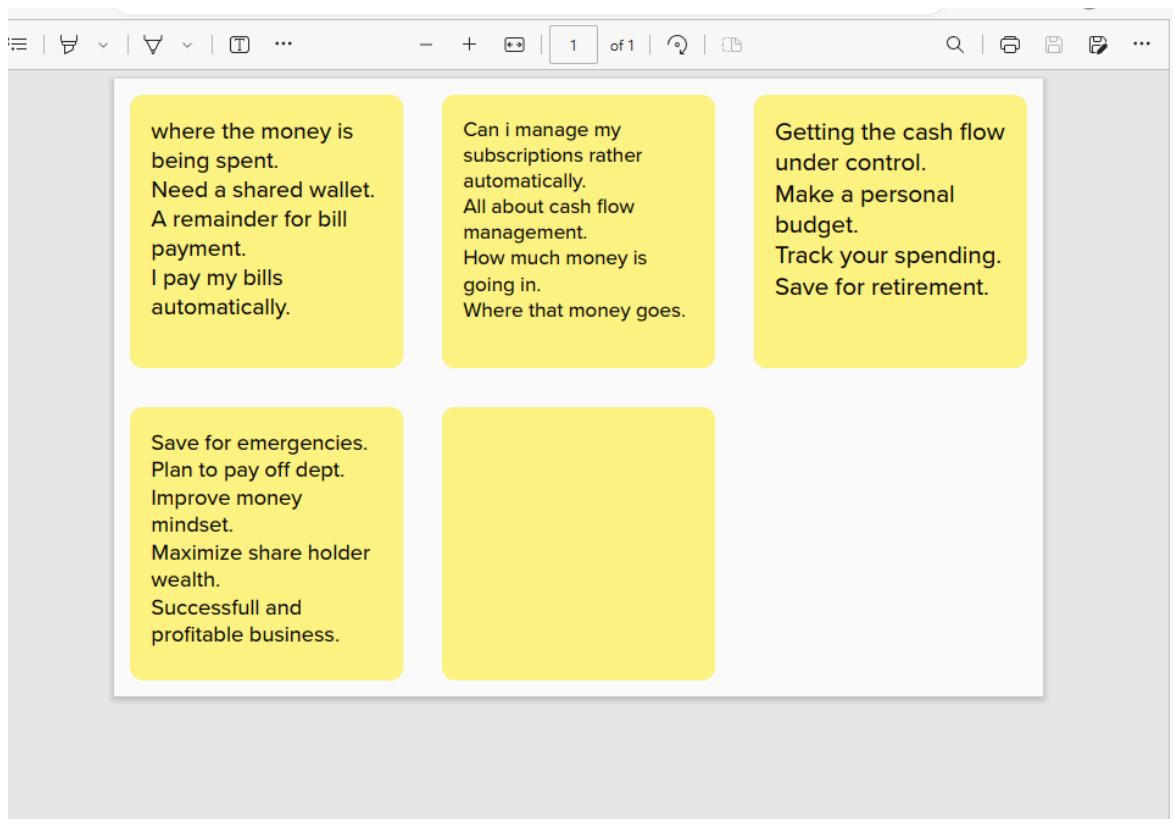

The Personal Finance Management app allows the user to set their account details, income and expenses.

1.2. Purpose

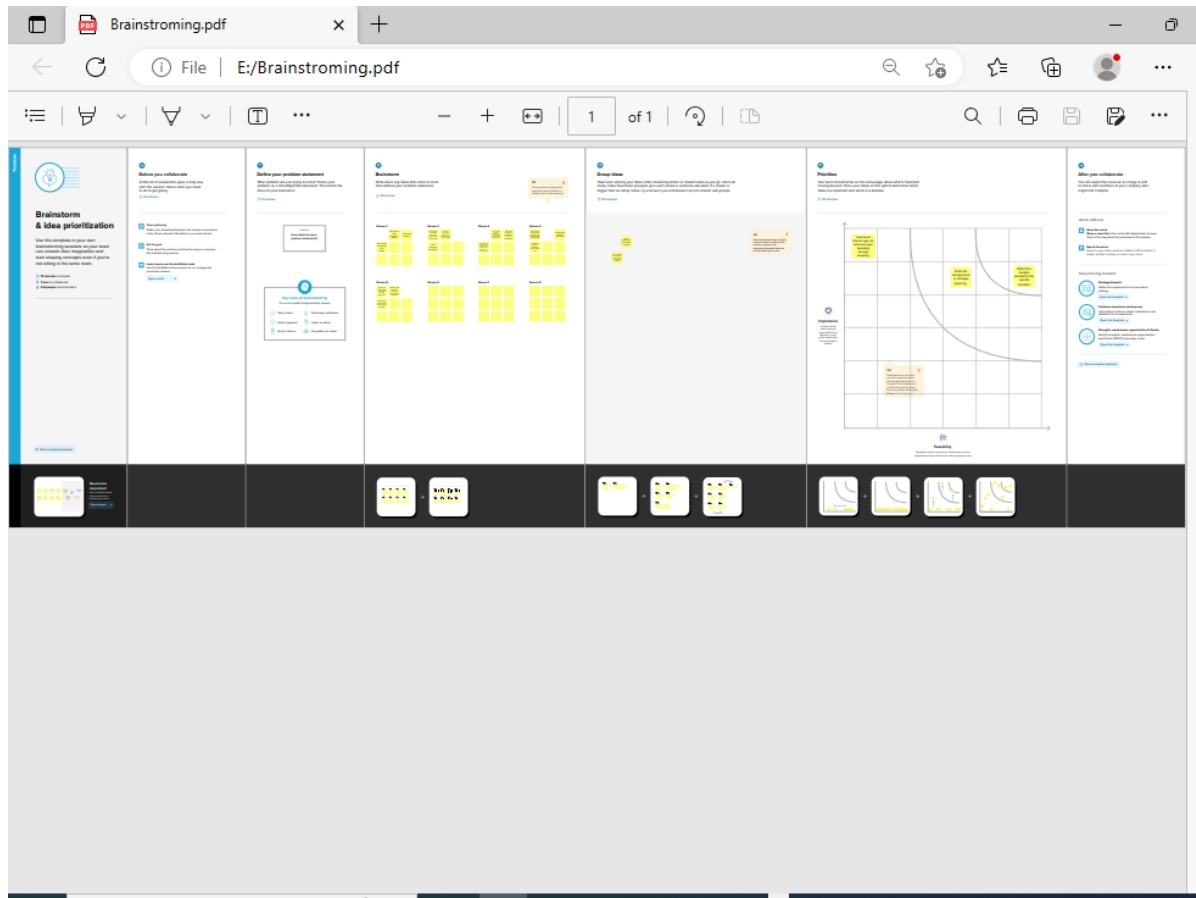

The app can be used to set a budget for the user and to keep track of his expenses.

Problem Definition and thinking

2.1. Empathy Map

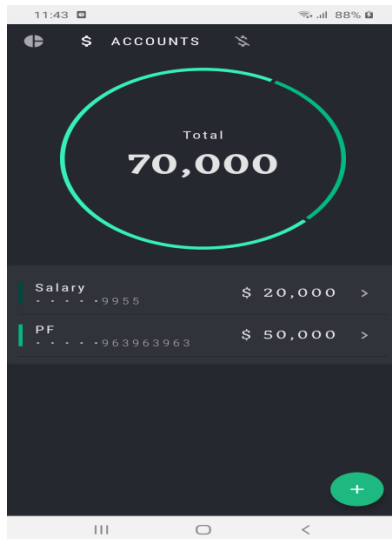

2.2. Ideation and Brainstorming Map

Result

Account

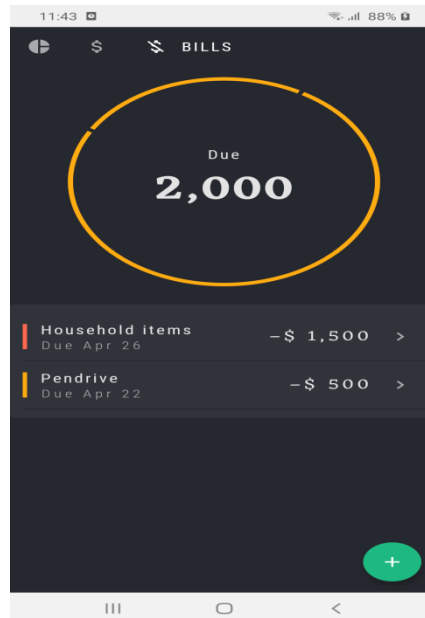

Add Account

The screenshot shows the 'Add Account' screen. At the top, there's a header with a menu icon, the word 'OVERVIEW', a dollar sign, and a swap icon. Below the header, there's a green bar with a back arrow and the text 'Add Account'. Underneath, there are three input fields labeled 'name', 'number', and 'amount'. At the bottom, there's a green button labeled 'Create'. The bottom navigation bar shows three icons: a list, a circle, and a back arrow.

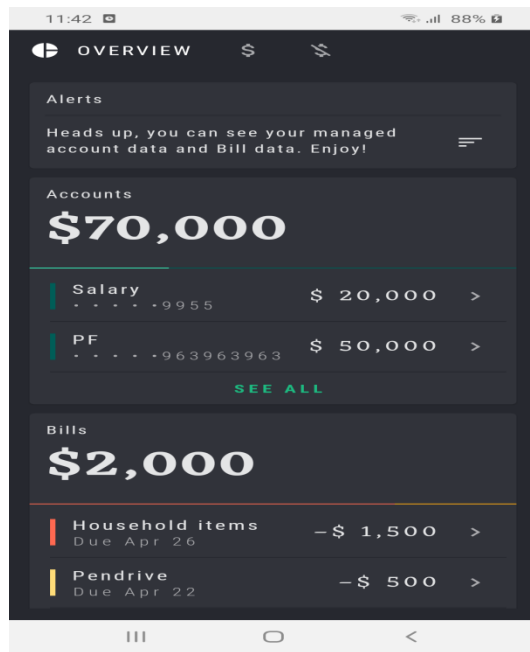

Add Bill

The screenshot shows the 'Add Bill' screen. At the top, there's a header with a menu icon, the word 'OVERVIEW', a dollar sign, and a swap icon. Below the header, there's a green bar with a back arrow and the text 'Add Bill'. Underneath, there are three input fields labeled 'name', 'due', and 'amount'. At the bottom, there's a green button labeled 'Create'. The bottom navigation bar shows three icons: a list, a circle, and a back arrow.

Bill

Single Account

Advantages

The personal finance management app is a mobile app help users to track their income, expenditures, investment, and banking. The app is a working boon for many people those who are not experts in accounting or finance.

Disadvantages

This needs to provide personal information or sensitive information, such as bank login and password, with which someone can gain access to the accounts.

Conclusion

Though the personal finance management app has its own risk, it makes the financial management an easy task. The only thing to be taken care of is that to ensure the app provide enough security against fraudulent attack of data.

Future Scope

The data collected by the app could be analyzed in such a way to provide personalized financial advice and related services.
